Organise  
...

## Dentistry needs strong leaders with big voices!

Learn to improve your dental leadership, management and communication skills in clinic and beyond.

## How many of your patients can actually explain what caused their gum disease?

This is a unique initiative to set all dental professionals on the path to leading patients to improve their oral health understanding.

On completion of ADL you will gain a certificate accredited by the Global Child Dental Fund, the World Federation of Public Health Associations and the International Federation of Dental Hygienists and you may use the letters CADL (Certificate of Advanced Dental Leadership) as part of your professional qualifications.

**Sign up to ADL for only £40.00**

**Find out more at: [www.advanceddentalleadership.org](http://www.advanceddentalleadership.org)**

ADL is the sister programme of the prestigious Senior Dental Leaders programme, supported by Harvard School of Dental Medicine, King's College London and sponsored by Colgate-Palmolive and Henry Schein.
